Public Summary

This document – as presented below – represents version 2.0 (M18) of the AENEAS Data Management Plan.

In v1.0, the revision of D8.1 was foreseen in M18 and M36. The scope of the first version was to present an overall approach towards processing of the data produced within a framework of the project.

This second version should still be considered as a living document as it will be reviewed and finalized one more time by the end of the project.
